Little Arrows II Program

This program is the next step in her journey of recognizing that You are Smart, You are Strong, and You deserve to always be Safe. She also need to understand the value of a diverse community. In understanding that you can learn from someone who does not look like you or even comes from your neighborhood will set the stage for the changing demographics we are already experiencing in the United States, and in our neighborhoods and schools.

In this program, we will continue to emphasize the Smart, Strong, and Safe messages we began in Little Arrows I We will introduce the growth mindset since the girls are now in first grade and they will be expected to have exponential growth in the subjects of reading, mathematics, social studies, and science. And, although we know they will thrive in school academically, we want to serve as a reinforcement of her emotional intelligence skills given the social media world we now live in. We know that in this world in which social media can be devastating and sometimes harmful to such young minds, it is critical that our girls at this very young age know who they are. It is also critical that we continue to teach our young girls how to operate so that they can always be safe.

Ages 6-7 (First graders)
